

Senior Design Bi-Weekly Status Report; Fall 2020

Report Period: Aug 17-30

Summary of Progress in this Period

Met with client and discussed project specifications, Assigned team roles, discussed members' experience and stack preference

Pending Issues

Team familiarity with attack trees and game theory is little to none - will require more research and information from client

Plans for Upcoming Reporting Period

Research similar projects and curate list of questions for client, narrow down project requirements and deliverables
